### **EXPERIENCE**

**Thomson Digital, Noida** **Feb. 2002 – Nov 2019**  
**Template Developer (TeX) (Digital Publishing Services Division)**  
Reporting to the Account Manager

Thomson Digital.; incorporated in 1967, is part of highly esteemed India Today Group with interests in Digital Services, Printing, Publishing, Music, Art , Television and Education.

#### **Roles & Responsibilities:**

- Responsible for servicing European customers for their digital and print requirements.
- Streamlining of workflows, controlling and improving quality.
- Constantly endeavoring to understand and pre-empt customer requirements and translate them into best possible products to match customer needs
- Handling a skilled and technical team.
- Responsible to maintain quality of the project.
- Setting production targets for the associates and motivate them to achieve the targets.
- Service delivery with the specified time and quality.

#### **Need Change in Job Profile:**

Willing to change the field of typesetting and accept new challenges in Web Development. Although don't have experience in web development but my experience in template development is nearly same as working on CSS. My working experience shall certainly be helpful for working in new environment. I have updated my skills in HTML 5, CSS 3, java script etc. My projects as a fresher can be seen on below links:-

<https://aksinha1030.github.io/cv> , <https://aksinha1030.github.io/tindog> ,

<https://aksinha1030.github.io/DrumKit>

To prove my skills, I am ready to start as a fresher in a good and cooperative working environment.
